B. This policy does not require Macomb County to provide enhanced access to any specific public record.
C. The Planning and Economic Development Department shall select which of its public records may be made through enhanced access.

3. Fees

A. It is the policy of Macomb County to charge a reasonable fee for providing enhanced access to a public record.

B. It is the policy of Macomb County to charge a reasonable fee for providing access to:

1. A geographical information system
2. The output from a geographical information system
3. The output from digital orthophotography and related products

C. “Reasonable fee” means a charge calculated to enable Macomb County to recover over time only those operating expenses directly related to the provision of enhanced access.

D. “Operating expenses” includes, but is not limited to, a public body’s direct cost of creating, compiling, storing, maintaining, processing, upgrading, or enhancing information or data in a form available for enhanced access, including the cost of computer hardware and software, systems development, employee time, and the actual cost of supplying the information or record.

E. The Planning and Economic Development Department shall establish a proposed reasonable fee for each public record made available for enhanced access or for access to a geographical information system/digital orthophotography or the output from a geographical information system/digital orthophotography. The proposed fee shall be presented to and approved by the Board of Commissioners before the fee shall be effective.

G. Enhanced access may be furnished without charge or at a reduced charge if the department determines that a waiver or reduction of the fee is in the public interest because enhanced access can be considered as primarily benefiting the general public. Examples, may include, but are not limited to, instances when:

1. The information is critical to public health or safety.
2. The information is required for nonprofit research purposes such as academic or public interest research.
3. The information is required to meet legal, programmatic, or governmental objectives.

5. The fee would have a serious detrimental impact on the financial position of particular groups or classes of users.
6. The fee would limit the number of users enough to compromise achieving program or other governmental objectives.

H. Waiver or fee reduction shall be decided by the Planning and Economic Development Department. The Board of Commissioners shall approve the waiver or fee reduction prior to the award of that waiver or fee reduction.
